[Roger Golden Brown's Quasar Website](https://www.quasar.website)

This document is intended to be a quick reference to the topics covered in my investigative Global Coup Related PDFs. Not included are PDFs that don't reference things that would not be obvious from their title.

Click on any title below to see a list of the topics covered in that PDF. Below the title of the PDFs themselves will be a link to the page on my website where they can be found and viewed or, which I recommend, downloaded (for free) as they can then be easily distributed to friends who are hungry for information or those who aren't but ought to be exposed.

In case you are wondering why the links just go to the page where they are available on my website instead of directly to the document, that is because, from time to time, they are updated; the link on their page will always be to the newest edition.
