

# The Green Party's Black Caucus Gets it Right

Published March 22, 2022

This was prepared by me, Roger Golden Brown, and can be found [here](#), along with lots of material related to the ongoing Global Coup [here on my website](#).

The Green Party has apparently fallen under the spell (or sold their soul to the global coupmasters) and endorsed vaccine mandates:

[“The Green Party of the United States Steering Committee strongly supports](#) the use of vaccines, vaccine mandates and quarantines as part of a comprehensive public health effort to curb and eradicate the novel Coronavirus (COVID-19) pandemic that has swept the globe since early 2020.”

However, the Green Party **Black Caucus** released a powerful, rational statement against the nonsense:

An excerpt: “Vaccine mandates and vaccine passports are among the most vile, unconstitutional, immoral, unscientific, discriminatory and outright criminal policies ever enforced upon the population and goes against everything the Green Party stands for under Social Justice.”

Read their whole statement: [“We Say No to Mandates”](#)

Finally because I think we really need to hear this and to keep it close to our hearts, another excerpt from their statement:

“Lockdowns, mandates and passports are the major issue of the day with millions of people protesting against them worldwide. In fact, what has become known as the Medical Freedom movement is arguably the biggest and most diverse international movement in world history.”
