Below are the show notes from the video, [The New Constitution: Living War Crimes](#), published by Book of Ours, January 1, 2023.

It is copied from a PDF of the show notes that they published with the video, but without live links. I have reworked it to make the links live because I think it is important to make this information as accessible as possible.

## Show Notes

Since the deployment of the virus and its countermeasure one question has burned into the consciousness of Americans everywhere: how did Constitutional and human rights laws become impotent? Why are war crimes going unpunished? Hopefully this production will shed some light on these questions.

This video essay is dedicated to and inspired by the works of Katherine Watt of Bailiwick News and Sasha Latypova of Trial Site News.
