Aside from my research and writings published in PDF format (found at the link above) I have a video channel on BitChute. (Also on Odysee and Rumble but the BitChute channel has a much bigger audience.)

It is full of interesting videos I've posted related to the Global Coup. However, as of today, October 27, 2022 it does not include original content, but that is coming soon.

In any case, there are a lot of videos and since much of it is not news of the day, there are great videos buried deep that are still very relevant.

So this is a list of all of my videos on my Quasar BitChute channel with links to each of them. They are organized into groups as seen in the Table of Contents.

Please pass this document on and send videos' links to anybody who might be interested or who might benefit from the information. Our biggest defense against tyranny is numbers - people who are exposed to information that gets them thinking for themselves.
