

# Sam Bailey *Viruses Unplugged* Videos' Show Notes

Compiled and prepared for PDF format by Roger Golden Brown

Published February 1, 2024

Find this PDF [here](#) and lots more Global Coup related material on my [Quasar website](#).

## No-Virus Preface

It is important to recognize that humans have a tendency to believe in some things that are absorbed as part of the culture and to accept them as true, but it behooves us to sometimes stop, take a look around and lend a critical eye as to whether our beliefs are based on reality. Not having proof that something exists does not mean it doesn't exist. However, without proof, one has to be very cautious about basing action on a theory.

It is important to remember that the Germ Theory is just that - a theory. Some "germs" such as bacteria are known to exist; they can be seen and observed. However, the nature of the correlation between dis-ease and the presence of bacteria is theory. Do they cause dis-ease or is their presence because they are nature's janitors? It's an important question if one wants to get to the core of what dis-ease in the body is, where it comes from and how best to recover or maintain health in the first place.

But that is a discussion for another time. This PDF and the others in this *No-Virus Package* are concerned with another theorized "germ": the virus. Unlike bacteria, viruses cannot be observed and the evidence of their existence and the idea of spreading or catching them is mostly based on correlation; numbers of people seeming to get "sick" at the same time, exhibiting similar symptoms.

What is usually referred to as being "sick" is the body's activities where its focus is to eliminate that which it recognizes as needing to be eliminated - this is a "healing crisis". The nature and intensity of the healing crisis depends not only on what needs to be eliminated but also on the overall health and integrity of the body. Viewing dis-ease in this light is often referred to as "terrain theory".

There are many people who believe that what medical dogma characterizes as the body's response to a virus has, in reality, nothing to do with a foreign contagious particle; rather the symptoms (the dis-ease) are the body's efforts to cleanse itself.

This is hugely important for two main reasons. One is to liberate ourselves from the Bad Guy bug vs. the Good Guy drug mentality. If viruses aren't causing the dis-eases that they are claimed to, then we are led on a wild goose chase for a "cure", away from the reality of what is happening in our bodies and the consequent learning of how best to

achieve health and how best to regain health when one feels unwell. And similarly, if viruses aren't causing "outbreaks" then we must look critically to first determine if there really is an outbreak and if there is, then look for other possible causes, such as toxins and other shared environmental conditions.

And reason number two is that without the fear of contagious particles being emitted by our fellow humans and lurking everywhere, ready to wreak havoc, the State loses it's most powerful tool of control over us.

## Sam Bailey Videos Show Notes Preface

Sam Bailey and her husband Mark are among the many medically trained professionals who have come to adopt this no-virus, yes-terrain belief. Both have written articles and books about the subject. And since shortly after the rollout of Covid, Sam has been making videos, digging into the fallacies of virology and offering alternative explanations for being "sick".

This PDF is a catalogue of some of the videos Sam has made; these being the videos that she has characterized on her website under the heading of *Viruses Unplugged*. The index items link to a section for each video with a link to the video on her website, Sam's intro for the video, and her References; links to sources for the video. Her videos can also be seen (in higher resolution) on her [Dr Sam Bailey Substack page](#).

Sam Bailey has also done videos that address related subjects such as the Covid response and State overreach. Those are not included here but can be found on her website or Odysee channel.

See also PDFs of mine for Show Notes of her videos in the *Germ Theory* category and one for *Other No-Virus Related Videos*. These three PDF are accompanied by another source PDFs of mine on the subject, *Sources for No-Virus Articles, PDFs, Videos, Websites*. See also my [No-Virus web page](#) for new documents to come or updates to these documents.

## What Happened To SARS-1?

January 27, 2021

Around 17 years before Covid-19 and what is termed “SARS-CoV-2” there was SARS or SARS-CoV-1. But where did SARS go? And how does it relate to Covid-19?

### **References:**

## The Yin & Yang of HIV – Part One

March 2, 2022

The narrative seems to have changed recently from “COVID-19” to “HIV”. I wonder why? In 1999, [“The Yin & Yang of HIV”](#) was published by [Dr Valendar Turner](#) and investigative journalist Andrew McIntyre under the guidance of [Eleni Papadopulos-Eleopulos](#). Eleni is the founder and leader of [The Perth Group](#) and her work has influenced virtually all of us today who question the HIV/AIDS dogma. Here is **Part 1** of the essay “A Brief History”, which is just as relevant today as when it was first written…

To find out more about the House of Numbers documentary – please see their website:

Find resources at The Perth Group <http://thepertthgroup.com>

## The Truth About Viruses

March 9, 2022

It doesn't seem to matter how many videos, articles and even books that refute the existence of “viruses”, I still get questioned with “but…what about [insert anything here]?” I took up the challenge to make a one stop video, although I'm not holding my breath. Make sure you **watch till the end**, where I have made a “Virology in 5 seconds” film

### **References:**

## [The Yin and Yang of HIV – Part Two](#)

March 30, 2022

We want to dedicate this video to the late Eleni Papadopulos-Eleopulos who sadly passed away last week at the age of 85. She was a mentor for me and even though I only spoke on the phone once with her, she remains the greatest influence on my work to date. May she rest in peace.

## [Tobacco Mosaic “Virus” – The beginning & end of virology](#)

April 5, 2022

The Tobacco Mosaic “Virus” is said to be the first “virus” ever discovered. The particle has even been purified and biochemically characterised. I decided to go back to the original studies from the late 1800s and I found more than just a few problems with the claims that they found a “virus”. It’s amazing what the germ theorists claim when Virus Mania strikes!

## [The Yin & Yang of HIV – Part Three](#)

May 1, 2022

In 1999, “[The Yin & Yang of HIV](#)” was published by [Dr Valendar Turner](#) and investigative journalist Andrew McIntyre under the guidance of [Eleni Papadopulos-Eleopoulos](#). Eleni was the founder and leader of [The Perth Group](#) and her work has influenced virtually all of us today who question the HIV/AIDS dogma. Here is Part 3 of the essay “The Diagnosis of “HIV” Infection”, which is just as relevant today as when it was first written...

## Monkeypox Mythology

May 26, 2022

**“Monkeypox”** – who could have seen it coming? Our [Virus Mania](#) team has been warning about false pandemics for decades. However, I didn’t think they’d try something this extreme. Is Monkeypox actually something you need to worry about or are they repackaging existing diseases through another fraudulent PCR? Read my [Monkeypox article here](#)

## Virus Debate

July 31, 2022

The [“Settling the Virus Debate” statement](#) has already caused a few shockwaves.

In this video we'll explore:

- What the statement actually says
- Why virology is not consistent with the scientific method
- Circular reasoning fallacies being presented as “evidence”
- Dr Mark Bailey’s response to a virologist’s “irrefutable evidence” of SARS-CoV-2

## References:

## What About Rabies?

August 5, 2022

Sometimes in the middle of a virus existence debate, someone blurts out, “**What about rabies?**” Rabies is a terrifying condition that has haunted the human imagination for centuries. I’ll look into the science of rabies and explain why most of us don’t need to worry about it. And get ready for our [special guest narrator](#), who describes the questionable 1930s animal experiments.

## [Bioweapons BS](#)

October 21, 2022

Many people can see that there are problems with the [“virus” model](#) and the concept of [contagion](#) in general. However, the notion of [“bioweapons”](#) instills a sense of fear in the population. Along with the mainstream media, various members of the [health freedom community](#) are promoting [“engineered pathogens”](#) and [“lab leaks.”](#)

In this video, we take a look at the scientific evidence at the heart of these so-called “bioweapons” claims. Watch as we dismantle the most scary “virus” of them all – **Ebola**.

## [HPV, Pointless Tests and Toxic Shots](#)

January 6, 2023

### HPV (Human Papillomavirus)

At some point in your life, you have probably been told that you have HPV or had it in the past. According to mainstream theory, it can either do nothing to you...or it can end up killing you!

Let's take a look at the incredible industry that has been built up on a particle that nobody has ever found. The story leads to pointless tests and toxic shots such as Gardasil. The good news is that you do not need to be afraid of this phantom "virus".

## [Artificial Intelligence Caught Lying About Viruses](#)

January 28, 2023

"Viruses" have been used as a [cover story](#) for over a century now. There are so many vested interests and smoke screens that it can be difficult to get people to look into the "[science](#)" for themselves. They are content to believe second hand accounts from the media, governments and so-called health institutions.

Artificial Intelligence or AI platforms have been on the rise recently and millions of people are now engaging with them. We decided to put some questions about "[viruses](#)" to one of the most powerful chatbots currently in existence – [ChatGPT](#). Are these platforms independent arbiters of truth or have they already been corrupted?

Is Artificial "Intelligence" even possible?

## [Taking Away Your Chickens](#)

February 11, 2023

While everyone has been distracted by the [COVID-19 fraud](#), many other aspects of the [globalists' agenda](#) have been [cooking in the background](#). One of them is the removal of poultry and eggs from the food supply.

The so-called Avian Flu is being used as the excuse to cull hundreds of millions of birds. It may be a surprise to some people that this is essentially a reboot of a narrative that was first tested two decades ago.

In 2005, a publication blew apart the fraudulent science used to invent a non-existent pandemic. Let's have a look at the paper they don't want you to know about as they attempt to take away your chickens.

### [Project Veritas and the “Virus”](#)

February 18, 2023

It's hard to believe that we are now over three years into the [COVID-19 fraud](#). We have exposed every aspect of [virology](#) and it is clear that the virus model is not supported by the scientific literature.

However, belief in the “[virus](#)” is necessary to achieve control of the population and this is maintained through one distraction after another. [Project Veritas](#) have produced the latest nonsense that unfortunately keeps people trapped within the fraudulent virus and contagion paradigms.

Belief in viruses is as deadly as the belief in the authority of the state. Many of the freedom community don't seem to realise that changing the actors won't free them from the plantation. The good news is that team “no virus” continues to gain more traction...

## [No Virus Is International](#)

March 4, 2023

People around the world are becoming more aware of the ‘no virus’ argument as the “science” of virology has been exposed. However, there is often a language barrier when it comes to reaching some countries. Many of the best-known critics of virology are in the English-speaking world and have developed strong alliances with large followings.

The good news is that the movement for truth is truly international and this video will look at some of the advancements being made in regions that are perhaps lesser known to most of our English-speaking audience.

And could the madness of COVID-19 end up bringing the world closer together?...

## [Why Are We Doing This?](#)

March 31, 2023

This video is something different from what we have ever done before...

The Baileys are joined by [Dr Thomas Cowan](#) and [Dr Andrew Kaufman](#) to release a joint statement [“Why Are We Doing This?”](#) It addresses the rift that has developed within the freedom community between the “pro-virus” and “no-virus” positions.

Following the statement, each of the four of us will share our personal views of the current situation and where we think things need to go.

### **References:**

## [Virology For Developing Countries...and Virus Fanatics](#)

April 8, 2023

It has become clear that there are several permitted narratives when it comes to [COVID-19](#) or any alleged [“viral” illnesses](#). However, all of these narratives come back to the “virus” and the concept of contagion. The [‘no virus’](#) arguments remain completely suppressed.

In order to sustain the [virus fraud](#), there needs to be universal acceptance of the virologists’ [pseudoscientific methodologies](#). Let’s take a look at a 2017 WHO document that “anticipated” the need for all of the world to establish [virology labs](#). And why do some [health freedom leaders](#) continue to support the WHO sponsored anti-science of virology?

## [Reiner Fuellmich's 'Coronaviruses'](#)

April 22, 2023

We are entering an interesting phase with regard to the impact of team '[no virus](#)'. Many in the health [freedom community](#) realise that the [virus existence issue](#) cannot be ignored indefinitely and are now making public statements.

Lawyer and freedom figure Dr. Reiner Fuellmich is well aware of the [problems with virology](#) and agrees that SARS-CoV-2 is a fictional construct. However, like many people, he appears unable to reject the virus model completely and he has made claims about "endemic coronaviruses" in a recent publication.

Let's have a look at where he gets it right, where he gets it wrong, and why the virus existence issue cannot be ignored...

## [What We Weren't Taught About Hepatitis](#)

June 3, 2023

There are plenty of reasons why the liver becomes inflamed, which have been known about for thousands of years. So how did the virologists start claiming it was due to "[viruses](#)" last century?

Let's have a look at the actual scientific "evidence" that big pharma has used to peddle drugs and [vaccines](#), including one for every child.

And with regard to alleged viral hepatitis, how did Baywatch star Pamela Anderson inadvertently expose the medico-pharmaceutical industry's house of cards?

## [Japanese Virus Rider](#)

July 8, 2023

The [COVID-19 show](#) has been running for over 3 years and while the script is the same in most countries, the Japanese have a very unique version. They even produced a television extravaganza claiming to demonstrate "[coronaviruses](#)" attacking cells akin to Godzilla on a rampage.

What did the high-definition footage actually reveal and what came out in a subsequent phone call with the lead researcher?

Our friend [Proton Magic](#) was all over this one, so this video features an acknowledgement of their contributions towards exposing the [fraud of virology](#) and [germ theory](#).

## [The RSV Vaccine Up-sell](#)

July 15, 2023

There is nothing like a 3-letter acronym to get public attention and 'RSV' (Respiratory Syncytial Virus) is one of the latest scares.

The [virus hypothesis](#) is a scientific dead end and yet RSV is being blamed more than ever for deaths in young children and the elderly.

What kind of sickness is RSV supposed to cause and what did scientists actually find in chimpanzees in the 1950s? All roads lead to [Big Pharma](#) in another allopathic medical scandal...

## [What The Media Won't Mention About RFK Jr.](#)

August 26, 2023

When it comes to "[viruses](#)", it is obvious that the mainstream media have pushed the narrative for decades. Although those of us pointing out [the lack of evidence for viruses](#) and contagion have gained considerable momentum in the past three years, most of the public remain oblivious to it.

However, a sizeable alternative news platform recently noticed something extraordinary about the media's coverage of RFK Jr:

- Why is the media completely silent about RFK Jr's greatest "weakness"?
- Answer: Because it may expose the fraud of virology to everyone.

## [A Farewell To Virology – Part One \(Dr Mark Bailey and Steve Falconer\)](#)

August 26, 2023

This is Part 1 of the film version of Dr Mark Bailey’s essay [\*A Farewell to Virology \(Expert Edition\)\*](#), produced by [Steve Falconer](#). Part 2 of the film can be found [here](#), and Part 3 is currently in the early stages of production. The essay can be downloaded from [here](#). [\(French, German, and Spanish versions are also available.\)](#)

While many will be aware of *A Farewell to Virology*, the history of its development is known to only a few. In 2021, Heterodoxies Society led by Dr John Bevan-Smith prepared an extraordinary legal take down of the perpetrators of the [COVID-19 fraud](#). The plan was to not only expose the [meaningless case definition](#) and manufactured numbers through the [misapplication of the PCR](#) but to demonstrate the foundational fraud of SARS-CoV-2 existence. John had done a brilliant job in his critiques of virology but he was advised to get Mark involved to ensure that the scientific case was watertight. Shortly after this PCR expert and [microscopist Dr Robin Wakeling](#) was also welcomed into the team. The Statement of Claim weighed in at over 200 pages with around 500 references and Mark described it as like nothing the world had ever seen.

As a supporting essay, Mark and John also published [\*The COVID-19 Fraud & War on Humanity\*](#) in 2021. Originally meant to be around 5000 words it rapidly expanded to over 14,000 as the two authors went back forth with additions. They lost track of its distribution after it reached over 200,000 people and had been translated into several other languages. I then produced a three part video series of [\*The COVID-19 Fraud\*](#) which also gained hundreds of thousands of views despite being banned on mainstream platforms.

By the time they published *The COVID-19 Fraud & War on Humanity* essay they were able to report that the epic Statement of Claim had been blocked by the courts:

*“As part of the process of peacefully taking back that which belongs to the people of NZ, Heterodoxies Society Incorporated filed a proceeding on 6 August 2021 in the Auckland High Court, CIV-2021-4041599. Regretfully, since then, on the basis of a legal contrivance that has no apparent statutory basis or value to the law, the case has been stayed, that is, confined to the equivalent of legal quarantine.”*

Other nefarious events also took place in the background which indicated that interference in the case was authorised at the highest levels.

Perhaps as [Marvin Haberland](#) discovered this year, the public courts are not going to allow the pseudoscience of virology to be placed on trial. After all, [Dr Stefan Lanka](#) embarrassingly exposed the lack of scientific evidence for the measles “virus” in 2016 with the German Higher Court accepting that none of the presented virology papers followed the scientific method. It would certainly be interesting to see the entire virus model on trial with [Drs Andrew Kaufman](#), [Mark Bailey](#) and [Stefan Lanka](#) cross-examining the world’s top virologists in front of a jury.

In 2022, Mark and John planned to follow up with a second *COVID-19 Fraud* essay. Mark was tasked with writing a systematic refutation of the claims of SARS-CoV-2 existence and John would document the wider aspects of the global fraud. However, as the year progressed John was increasingly busy with his work and pursuit in establishing whether government agencies would uphold supposedly inviolable civil rights in New Zealand. Mark felt that the timing was right to publish an essay so it was agreed that he would publish a refutation of the virus model as a stand alone treatise. It was modified to go beyond refuting just SARS-CoV-2 and [A Farewell to Virology](#) was born.

While we have seen many awful things during the COVID era we continue to focus on all the gifts we have been given. For many of us it has been a true awakening and the revelation of the path to complete physical and spiritual well-being. It has been a privilege to have so much support across the world and many supporters have been incredibly generous with time and resources. The new friendships we have forged have been invaluable and had it not been for the tyrannical measures employed by the New Zealand government from 2020 onwards it is unlikely that we would ever have known Dr Bevan-Smith and Dr Robin Wakeling. Now they are like family to us, as are other members of this wider community we find ourselves in. While the supranationals, governments and their stooges can try on all the deception in the world, they will never defeat the ideas and way of being that comes from a place of truth, love and friendship. As our good friend [Dr Tom Cowan](#) would say, “we got this!”

Part 1 of *A Farewell to Virology* is very technical in places and it takes a film maker like [Steve Falconer](#) to turn it into something that captivates the audience for just under two

hours! I hope you enjoy it as much as Mark and Steve enjoyed bringing it to the world. Thank you for all your support and we look forward to producing more.

## [The Follies of Peter McCullough](#)

September 16, 2023

Dr Peter McCullough is a hero to many in the medical freedom community and has been one of the most prominent voices in the fight against the COVID vaccines. While we have supported him on this front, it has been increasingly difficult to condone his public statements about “viruses” and the alleged novel disease entity ‘COVID-19’. We have made some previous responses [here,here](#) and [here](#) but he continues to double down on his claims.

Recently, Dr McCullough appeared on the [Man in America show](#) and attempted to justify the “science” of the virologists. He also made some outrageous claims about those of us providing refutations to the virus model and even told outright lies about the history of our group.

In this video [Dr Mark Bailey](#) is joined by ‘no virus’ veteran Dr [Kevin Corbett](#) to provide a detailed commentary and rebuttal to Dr McCullough’s claims. This is a vital issue as such claims are keeping people trapped not only in the [viral delusion](#) but also within the wider allopathic paradigm.

## [Why ALL "Viruses" Originate In Laboratories](#)

October 28, 2023

The COVID-19 "[lab leak](#)" narrative has been in play on mainstream platforms since early 2020. However, many in the so-called [freedom community](#) are portraying the story as a high-level cover up. They allege that the research has spun out of control with "[engineered pathogens](#)" on the loose.

However, what evidence are these claims relying on? Do they really understand the pivotal "[gain of function](#)" virology papers? In this video we will see why all "viruses" originate in laboratories but why you have nothing to worry about.

## [What You Need To Know About Yellow Fever](#)

November 5, 2023

In our book [\*Virus Mania\*](#) we warned how the medical industry continually invents epidemics, making billion-dollar profits at our expense. While this often involves inventing new diseases such as the [Avian Flu](#) or [COVID-19](#) we are also seeing "old" diseases being touted in the media once again.

One of the latest fear narratives involves the impending return of the dreaded yellow fever, said to be caused by the first ever human "virus" to be isolated in 1927. Once again all roads lead to the need for [mass vaccination](#) according to the "experts". What kind of carnage did this lead to in the past and is yellow fever even a specific entity, let alone caused by a "virus"?

### **References:**

## [A Farewell To Virology – Part Two \(Dr Mark Bailey and Steve Falconer\)](#)

December 16, 2023

This is Part 2 of the film version of Dr Mark Bailey's essay [A Farewell to Virology \(Expert Edition\)](#), produced by [Steve Falconer](#). Part 1 of the film can be found [here](#), and Part 3 is currently in the early stages of production. The essay can be downloaded from [here](#). (French, German, and Spanish versions are also available.)

While many will be aware of *A Farewell to Virology*, the history of its development is known to only a few. In 2021, Heterodoxies Society led by Dr John Bevan-Smith prepared an extraordinary legal take down of the perpetrators of the [COVID-19 fraud](#). The plan was to not only expose the [meaningless case definition](#) and manufactured numbers through the [misapplication of the PCR](#) but to demonstrate the foundational fraud of SARS-CoV-2 existence. John had done a brilliant job in his critiques of virology but he was advised to get Mark involved to ensure that the scientific case was watertight. Shortly after this PCR expert and [microscopist Dr Robin Wakeling](#) was also welcomed into the team. The Statement of Claim weighed in at over 200 pages with around 500 references and Mark described it as like nothing the world had ever seen.

As a supporting essay, Mark and John also published [The COVID-19 Fraud & War on Humanity](#) in 2021. Originally meant to be around 5000 words it rapidly expanded to over 14,000 as the two authors went back forth with additions. They lost track of its distribution after it reached over 200,000 people and had been translated into several other languages. I then produced a three part video series of [The COVID-19 Fraud](#) which also gained hundreds of thousands of views despite being banned on mainstream platforms.

By the time they published *The COVID-19 Fraud & War on Humanity* essay they were able to report that the epic Statement of Claim had been blocked by the courts:

*“As part of the process of peacefully taking back that which belongs to the people of NZ, Heterodoxies Society Incorporated filed a proceeding on 6 August 2021 in the Auckland High Court, CIV-2021-4041599. Regretfully, since then, on the basis of a legal contrivance that has no apparent statutory basis or value to the law, the case has been stayed, that is, confined to the equivalent of legal quarantine.”*

Other nefarious events also took place in the background which indicated that interference in the case was authorised at the highest levels.

Perhaps as [Marvin Haberland](#) discovered this year, the public courts are not going to allow the pseudoscience of virology to be placed on trial. After all, [Dr Stefan Lanka](#) embarrassingly exposed the lack of scientific evidence for the measles “virus” in 2016 with the German Higher Court accepting that none of the presented virology papers followed the scientific method. It would certainly be interesting to see the entire virus model on trial with [Drs Andrew Kaufman](#), [Mark Bailey](#) and [Stefan Lanka](#) cross-examining the world’s top virologists in front of a jury.

In 2022, Mark and John planned to follow up with a second *COVID-19 Fraud* essay. Mark was tasked with writing a systematic refutation of the claims of SARS-CoV-2 existence and John would document the wider aspects of the global fraud. However, as the year progressed John was increasingly busy with his work and pursuit in establishing whether government agencies would uphold supposedly inviolable civil rights in New Zealand. Mark felt that the timing was right to publish an essay so it was agreed that he would publish a refutation of the virus model as a stand alone treatise. It was modified to go beyond refuting just SARS-CoV-2 and [A Farewell to Virology](#) was born.

While we have seen many awful things during the COVID era we continue to focus on all the gifts we have been given. For many of us it has been a true awakening and the revelation of the path to complete physical and spiritual well-being. It has been a privilege to have so much support across the world and many supporters have been incredibly generous with time and resources. The new friendships we have forged have been invaluable and had it not been for the tyrannical measures employed by the New Zealand government from 2020 onwards it is unlikely that we would ever have known Dr Bevan-Smith and Dr Robin Wakeling. Now they are like family to us, as are other members of this wider community we find ourselves in. While the supranationals, governments and their stooges can try on all the deception in the world, they will never defeat the ideas and way of being that comes from a place of truth, love and friendship. As our good friend [Dr Tom Cowan](#) would say, “we got this!”

Part 2 of *A Farewell to Virology* is very technical in places and it takes a film maker like [Steve Falconer](#) to turn it into something that captivates the audience for over two hours! I

hope you enjoy it as much as Mark and Steve enjoyed bringing it to the world. Thank you for all your support and we look forward to producing more.
