Find this PDF as well as other PDFs about Bill Gates [here](#) - and lots more Global Coup related material on my [Quasar website](#).

And check out my [Author Page](#) for all of my published books - this includes paperbacks and ebooks. The content of the paperbacks reflect my truer inner self, predating my current seemingly necessary focus on world affairs. The ebooks include 4 Free world affairs oriented titles.

## Preface

The Source PDFs in this series will differ from my “Global Coup Related Specific Topic PDFs” that cover topics with narrative, quotes from sources, and linked footnotes. The intention is for these source documents to have a bare minimum of text. The idea is to assemble a library of sources for a broad spectrum of Global Coup related topics.

Following each link, on the next line the type of source that is linked to will appear in CAPs along with the source. If the title of the linked article, video, patent, or study is self explanatory that may be sufficient while with some links there will also be a brief description. And a few will have an excerpt from the source in quotation marks.

I have not vetted all of the information contained in the videos and articles. As always don't take my or anybody's word for anything outright. Realize your own agency and recognize that trust in information can be nuanced.

Finally, these source documents will likely be updated from time to time as I find more sources. Check back for newer versions. Note the date under the title above.

## Overview

Bill Gates' role in the whole Pandemic / Vaccine phenomenon, as well as the New World Order is huge. His tendrils are all over the place. Bill Gates is the ultimate technocrat. If you are not familiar with the concept of technocracy and technocrats, check out my Global Coup Related Specific Topic PDF, “*Technocracy and the Technocrats*”, on the subject at the link at the top of this PDF.

Technocrats see technological solutions to issues. But more than the technological aspect is a kind of mechanical practicality to their solutions; usually ignoring the human or natural aspects. Further, there seems to be a kind of Machiavellian attitude that their approaches to how to do things should be freely done outside of any kind of democratic

process or debate. Bill Gates is a technocrat who has the money and the influence to manifest his ideas, often having a major impact on people and the world without any input from those affected.

This PDF will have links to the many projects that Bill Gates is involved with. It will also briefly cover such things as how he spreads his wealth around to buy promotion of himself and his “philanthropy”.

While I attempted to address most of the issues that seem relevant to the global governance and digital takeover that is happening, this PDF will no doubt be only scratching the surface of what Bill Gates is involved in. To dig deeper, many of the articles have numerous links that can be explored.

For most topics covered there will be a few source links. At the end of the PDF can be found some more article and videos; some of which are more general in covering Gates’ involvements.

Note: The abbreviation BMGF is sometimes used for the Bill and Melinda Gates Foundation. Note also that Microsoft itself (since Gates resigned) is also deeply involved with many global governance and digital control aspects of the new normal. And although Gates may play a role in one way or another in those adventures, they are not included in this PDF.

.

This PDF will not look at the long shady history of Bill Gates but rather will be focusing on his more recent activity. But first here are a couple of video sources that look at the history of Bill Gates.

For perhaps the best overall view and an in-depth look at Bill Gates, the man, I refer the reader to James Corbett’s excellent 4 part documentary, “Who is Bill Gates?” At Corbett's page, [Who is Bill Gates?](#), find also the transcripts, which are also available in PDF format at on my website [here](#).)

A little more about Bill Gates’ background comes from Really Graceful's, [Who was Bill Gates Before Microsoft?](#):

This is a video about philanthropic billionaire, Bill Gates. We go into his family history, his early childhood, education, extracurriculars, and time at Harvard to answer the question "Who was Bill Gates before Microsoft?"

You know we see if when we go out to get all the children, if there's some settlement areas that we've actually missed. We also put a -- a phone in the vaccine box they carry around that looks where they're located every three minutes and so it has that GPS data. At the end of the day you plug that in and compare it to where they were asked to go, and you can see if you're -- you're really covering all the kids.
