

# World Economic Forum Related Covid-19 Perpetrators

Prepared for PDF format by Roger Golden Brown

Published July 12, 2024

Find this PDF [here](#) and lots more Global Coup related material on my [Quasar website](#).

This PDF is an article, [COVID-19/Perpetrators/WEF](#), from the Wikispooks website. It is a list of people who have ties with the World Economic Forum who were instrumental in various aspects of the rollout and promotion of the Covid-19 scam, and related measures such as the "vaccines" and digital tracking, etc.

The links in the table of contents link to the sections of the article in this PDF. The links in the text are links to Wikispooks articles on their website and the footnote links are to online material (via the article's references on the Wikispooks articles' page.)

Note that a few sections listed in the table of contents have no entries; the article online is a work in progress and will no doubt be added to in time.

For those unfamiliar with Wikispooks, follow this link to their [About Wikispooks](#) page. Their [FAQ page](#) is also worth reading. From the About page:

Wikispooks was established to facilitate a collective re-examination of recent history. Since 2010 we have gradually focused our research on deep politics (the business of deep state groups) since this area is not subject to proper scrutiny by corporate media such as Wikipedia. Wikispooks aims to organise documents and first hand testimony as clearly as possible, carefully avoiding enemy images and polarising perspectives, respecting our common humanity and looking forward to a deep seated truth and reconciliation, as the formerly hidden business of deep politics becomes increasingly exposed.

## Masks

Full article: [Mask](#)

The infographic is titled "Manufacturing plants" and is from Bain & Company. It features a "Back to Work" link at the top. The main heading is "Manufacturing plants" in red. Below this, there is a sub-heading "Worker risks in a typical business with no virus-mitigation measures" and a table of risk factors. To the left of the table is a photograph of a worker in a white protective suit and mask. Below the table are six boxes, each with a red icon and a title, containing specific mitigation strategies.

RISK FACTOR	RATING
Proximity	Nearby
Nature of Contact	High touch
Duration	Prolonged
Number of contacts	Several
Ability to screen and remove	Uncontrolled
<b>Risk factors (pre-Covid-19)</b>	<b>High risk</b>

★ Innovative idea in sector

- Personnel health and safety**
  - Require worker screenings (e.g., temperature) prior to plant entry
  - Keep face masks, shields and gloves well stocked
  - Temporarily close plants if an outbreak occurs
  - Establish regional pandemic response teams
- HR policies**
  - Require stay at home, with pay, when feeling ill or after a positive test
  - Consider offering an additional bonus to hourly production team members
- Physical workspace**
  - Modify work areas to increase distances between workers where possible
  - Frequently disinfect workspaces, and deep clean facilities
  - Implement social-distancing measures or meals, such as staggered break times
- Travel policies**
  - Prohibit all nonessential business travel
- Staffing and attendance**
  - Stagger shift times to add a gap between worker arrivals and departures
- External interaction**
  - Allow visitors and contractors only when critical
  - Develop self-screening forms for visitors and contractors when needed
